DIRECTIONS FOR THE
USE OF

"11"

HUMPHREYS No. "ELEVEN"

A HOMEOPATHIC PREPARATION

For IRREGULAR or DELAYED MENSES, Due to Functional Female Disorders.

DIRECTIONS:—If the *MENSES* are too scanty or too pale, take two tablets of No. 11, four times a day until the proper quantity and color are restored. If the *MENSES* are suppressed during the flow, or arrested when about to come on, because of cold, emotional shock, or such like causes, take two tablets of No. 11 every two hours until the discharge is re-established. If these conditions persist consult your doctor.

Young girls do not always start *MENSTRUATING* at the same age, and for a time may not *MENSTRUATE* regularly at monthly intervals. If the patient is otherwise in good health, no medicine is needed. Proper clothing, nourishing foods, and mild exercise are important factors to be watched. However, when symptoms of the approaching flow are noted, such as flushes of heat, giddiness, pain in the back, and heaviness of the limbs, give two tablets of No. 11, four times a day until the *MENSES* appear.

PARA MENSTRUACION IRREGULAR O RETARDADA CAUSADA POR TRASTORNOS
MENSUALES DE LA MUJER.

DIRECCIONES:—Si el flujo fuera escaso o pálido, tómense dos tabletas del No. 11, cuatro veces diarias hasta que la cantidad y color se restablezcan. Si el flujo se detuviera una vez empezado o no viniera a su tiempo debido a frío, emociones nerviosas, o causas parecidas, tómense dos tabletas del No. 11 cada dos horas hasta que el flujo se restablezca. Si estas condiciones anormales persistieran consúltese un médico.

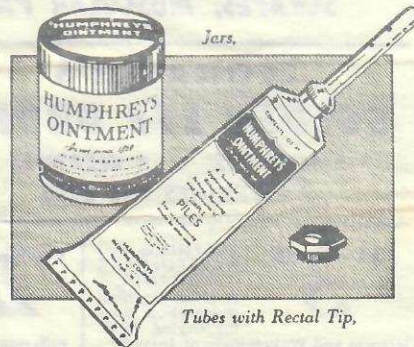

La Menstruación en las jovencitas no siempre comienza a la misma edad, y durante algún tiempo es muy posible que no aparezca regularmente cada mes. Si la jovencita goza de buena salud, no se requiere ningún medicamento. Ropa adecuada, alimentos nutritivos, y ejercicios ligeros forman factores importantes que deben observarse. Sin embargo, cuando se observan síntomas del flujo, tales como afluencia de calor, desvanecimientos, dolor en la espalda y pesadez de las piernas, se darán dos tabletas del No. 11, cuatro veces diarias hasta que aparezca el flujo.
